Subject Schedule D total of Unsecured column would help MT and
13

On Schedule E you added a Total to the Priority Amount column and in the memo noted it was "to assist the individual debtor to complete the means test form".

Suggest adding a similar Total to the "Unsecured Portion" on Schedule D.

It would also be useful for computing Means Test Line 52 "Total Non-Priority Unsecured Debt" as =
 $D_Unsecured + (E_Total - E_Priority) + F_Total$

Otherwise I can't see where this "UGen" number is on the schedules.
